**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It would be outrageous if you made it impossible for Sonic in the San Francisco Bay Area to continue to provide the extraordinarily superb fiber service they do. Do not fall for the arguments of AT&T and the other huge, customer hostile providers who are trying to grab a monopoly on service.

I have dealt with AT&T DSL and cable in the past and their internet service was slow, their customer service horrible.

Companies like Sonic provide excellent customer service, and excellent high data rate fiber connections, along with very useful and highly competitive auxiliary telephone service.

I strongly support the existing "Bridge2Broadband".

Do not allow AT&T to muscle in and remove competition, increase prices, and do their usual job of reducing quality of service.

NO NO NO to AT&T's monopolistic attempt to grab of the interconnects to the broadband trunks!

High bandwidth internet is critical to people like me. Do not let AT&T screw it up again and price gauge.

Have I been clear?

Thomas Nash
